Good News for Our Client = Good News for FreemanWhite

Healthcare Building Ideas Cover Feature: Donna Craft with CMC-NorthEast

Charlotte, N.C., August 18, 2008 - What's good for CMC-NorthEast is also good for FreemanWhite. Yes? Well, certainly most of the time. And, it is absolutely true when it comes to the cover feature of *Healthcare Building Ideas* (June/July 2008). This magazine highlights CMC-NorthEast's Vice President of Facilities/Plant Operations, Donna Craft and her contribution to the hospital's last decade of 146 construction projects (representing $200,000,000) of which more than half bear the FreemanWhite architectural/engineering design signature.

Donna Craft began her 29 year career with CMC-NorthEast as a registered nurse. Today she has completed more than 10 years as Vice President Facilities/Plant Operations for a 457-bed hospital that ranks among the largest 10% in our nation. Her efforts (in collaboration with FreemanWhite and Rodgers Builders) to build and maintain facilities and benefit over 4,200 employees and 300 physicians as well as 25,000+ inpatients/year and 225,000+ outpatients/year.

FreemanWhite's partnership with Donna and, in turn, CMC-NorthEast has been long and close for over 15 years representing the firm's longest continuous hospital relationship in North Carolina. We only hope this relationship continues to grow and gives us both more good news in the future.
